

Letter of Intent and Previous Work

D.Gueorguiev, 6/16/2023

My interests include mathematical modeling via convex and combinatorial optimization, graph theory and dynamic programming algorithms. Interested in using probabilistic methods for creating suitable estimators and root cause analysis.

Here are few repos representing my interests in those topics. All these repos are work in progress and will be updated periodically.

https://github.com/dimitarpg13/reinforcement_learning_and_game_theory

https://github.com/dimitarpg13/graphs_and_dynamic_programming

https://github.com/dimitarpg13/probabilistic_machine_learning

https://github.com/dimitarpg13/learning_bayesian_networks

https://github.com/dimitarpg13/root_cause_analysis_and_model_checking

https://github.com/dimitarpg13/transformers_intro

Additionally, I am looking into an implementation of [semantic simulation mechanism](#) using reinforcement learning. Here are my preliminary notes on the semantic simulation process:

<https://github.com/dimitarpg13/aiconcepts/blob/master/docs/OnTheNeedofDynamicSimulationWhenModelingInteractionsOfSemanticStructures.pdf>

<https://github.com/dimitarpg13/aiconcepts/blob/master/docs/ModelingAttractiveRepulsiveForcesInSemanticProperties.pdf>

<https://github.com/dimitarpg13/aiconcepts/blob/master/docs/ReinforcementMechanismInSemanticStructureModels.pdf>

<https://github.com/dimitarpg13/aiconcepts/blob/master/docs/SemanticTemplates.pdf>

<https://github.com/dimitarpg13/aiconcepts/blob/master/docs/PracticalExamplesUsingSemanticSimulationWithRL.pdf>

My coding experience involve python, C++, C, Java.

Here are samples of my C++ code from past endeavors:

[https://github.com/google/or-](https://github.com/google/or-tools/compare/stable...dimitarpg13:ortools:dpg/PWL_solver_stable_py2.7_gtest_scipV6)

[tools/compare/stable...dimitarpg13:ortools:dpg/PWL_solver_stable_py2.7_gtest_scipV6](https://github.com/google/or-tools/compare/stable...dimitarpg13:ortools:dpg/PWL_solver_stable_py2.7_gtest_scipV6)

<https://github.com/dimitarpg13/testcode/blob/master/fraction.cpp>

https://github.com/dimitarpg13/testcode/blob/master/fraction_mt.cpp

https://github.com/dimitarpg13/testcode/blob/master/fraction_bigint.cpp

https://github.com/dimitarpg13/cpp_testcode/tree/master/SudokuQlik/src

And here are relevant documents to software design, architecture, coding techniques and design patterns:

<https://github.com/dimitarpg13/BigIndex/blob/main/PresentationDGueorguiev2018.pdf>

<https://github.com/dimitarpg13/InsideTensorflow2Source/blob/master/Understanding%20Tensorflow%20%20source%20code.pdf>

<https://github.com/dimitarpg13/UnderstandingPythonEcosystem>

https://github.com/dimitarpg13/inside_cpp_object_model

And here are few repos about C++ language details and features:

https://github.com/dimitarpg13/cpp_effective_modern

https://github.com/dimitarpg13/cpp_move_semantics

https://github.com/dimitarpg13/cpp_templates_complete_guide

https://github.com/dimitarpg13/cpp_random_pieces
