Letter of Intent and Previous Work

D.Gueorguiev 6/16/2023

I am looking into an implementation of semantic simulation mechanism

using reinforcement learning. Here are my preliminary notes on the semantic simulation process:

https://github.com/dimitarpg13/aiconcepts/blob/master/docs/OnTheNeedofDynamicSimulationWhen ModelingInteractionsOfSemanticStructures.pdf

https://github.com/dimitarpg13/aiconcepts/blob/master/docs/ModelingAttractiveRepulsiveForcesInSemanticProperties.pdf

https://github.com/dimitarpg 13/aiconcepts/blob/master/docs/Reinforcement Mechanism In Semantic Structure Models.pdf

https://github.com/dimitarpg13/aiconcepts/blob/master/docs/SemanticTemplates.pdf

https://github.com/dimitarpg 13/aiconcepts/blob/master/docs/Practical Examples Using Semantic Simulation With RL.pdf

Additionally, my interests include mathematical modeling via

convex and combinatorial optimization, graph theory and dynamic programming algorithms. Interested in using probabilistic methods for creating suitable estimators and root cause analysis.

Here are few repos which I created related to these topics and representing my interests in those:

https://github.com/dimitarpg13/reinforcement learning and game theory

https://github.com/dimitarpg13/graphs_and_dynamic_programming

https://github.com/dimitarpg13/probabilistic machine learning

https://github.com/dimitarpg13/learning_bayesian_networks/blob/main/docs/LearningBayesianNetworks part1.pdf

https://github.com/dimitarpg13/root_cause_analysis_and_model_checking

https://github.com/dimitarpg13/transformers intro/blob/main/docs/TransformersIntro.pdf

My coding experience involve python, C++, C, Java.

Here are samples of my C++ code from past endeavors:

https://github.com/google/or-tools/compare/stable...dimitarpg13:ortools:

dpg/PWL solver stable py2.7 gtest scipV6

https://github.com/dimitarpg13/testcode/blob/master/fraction.cpp

https://github.com/dimitarpg13/testcode/blob/master/fraction mt.cpp

https://github.com/dimitarpg13/testcode/blob/master/fraction_bigint.cpp

https://github.com/dimitarpg13/cpp_testcode/tree/master/SudokuQlik/src

And here are relevant documents to software design, architecture, coding techniques and design patterns:

https://github.com/dimitarpg13/BigIndex/blob/main/PresentationDGueorguiev2018.pdf

https://github.com/dimitarpg13/InsideTensorflow2Source/blob/master/Understanding%20Tensorflow

%202%20source%20code.pdf

https://github.com/dimitarpg13/UnderstandingPythonEcosystem

https://github.com/dimitarpg13/inside_cpp_object_model

And here are few repos about C++ language details and features:

https://github.com/dimitarpg13/cpp_effective_modern

https://github.com/dimitarpg13/cpp move semantics

https://github.com/dimitarpg13/cpp templates complete guide

https://github.com/dimitarpg13/cpp_random_pieces
